

AFFINITY GROUP SPOTLIGHT FROM A-Z

The Office of the Scientific Director News Bulletin will be adding a new feature to acknowledge and celebrate the great research that is being done within our affinity groups. Starting in February 2021, one affinity group each month will choose one of their projects to be highlighted in the bulletin in the form of poster presentation. Please submit the poster to Triesta Fowler – fowlerlt@nih.gov by the 10th of each month

FEBRUARY

Aquatic Models of Human Development

MARCH

Bone & Matrix Biology in Development & Disease

APRIL

Cell Regulation & Development

MAY

Cell & Structural Biology

JUNE

Developmental Endocrinology, Metabolism, Genetics and Endocrine Oncology (DEMGE0)

JULY

Genetics and Epigenetics of Development Group

AUGUST

Genomics and Basic Mechanisms of Growth and Development (GBMGD)

SEPTEMBER
